

# MOONBASE

## EXPLORERS

GRADES K - 2

Students will explore the requirements for building and maintaining lunar settlements as they encounter test tubes, x-rays, robots, and much more in our Apollo Room and Planetarium. The highlight of the program is when students embark onto the simulated Lunar Surface for a Moon Rock Excavation!

This program aligns with both state and national standards and addresses content in the following areas and more:

- **PREDICTION, OBSERVATION, AND INVESTIGATION**
- **MOTION, MAGNETISM, AND MEASUREMENT**
- **CHOOSING TOOLS AND SORTING SAMPLES**
- **ENGINEERING DESIGN AND TESTING**

**DURATION: 2 HOURS**

**PRICE: \$300 / 25 STUDENT MAX**
